## **TEASER-TRAILER RELEASED FOR SPACE OPERA “VIOLENT STARR” feat. Bianca Bradey (Wyrnwood)**

### **Hamburg.**

Germany-based filmmakers Matti Schindehütte and Oliver Tietgen (Boesewicht Film) just released the first teaser for their upcoming science-fiction movie “Violent Starr”: A female space pirate, Violent Starr (Bianca Bradey), transforms into the savior of the universe by inheriting the arm of a legendary warrior. She fights against “The Godmichael” and his evil mates a giant evil god-like head - floating in space (special cameo appearance by Michael Berryman).

*“It’s going to be like the sci-fi you loved as a child, including spaceships, aliens and weird ideas. But with added sex and violence.”* says writer/director Oliver Tietgen.

*“The movie will mostly feature practical effects – you won’t see any CG spaceships in it.”* says co-creator/producer Matti Schindehütte. *“A Space Opera about good and evil, antixenophobia and love.”*

The filmmakers got international support from model builders, creature and prop designers, such as Steve Howarth who built the rovers and „Gerty“ for the movie „Moon“ (2009).

They already have a growing fanbase in the social media: [www.instagram.com/violent\\_starr](http://www.instagram.com/violent_starr)
